## MUNICIPAL AFFAIRS.

BOARD OF ALDERMEN.

This board met last evening. The President in the chair. Several petitions for the correction and remission lation to the surgical department and submitting that their claims were based upon strong grounds, provided their charges were reasonable. Ordered to be printed

A communication was also received from the Mayor in answer to a resolution of the board requesting him to furnish copies of any correspondence between himself and the Postmaster General, in which the Mayor states that he has no correspondence to submit but that already communicated, except a letter to the Postmaster of New Yors and the reply, in which the Mayor refuses to allow boxes to be placed in the several station houses of the

STEPHEN H. BRANCH.

The petitioner. Nicholas Seagrisi, claims that the eight votes returned for "Nicholas Seagrisi," and he vote for "—Seagrisi," should be allowed him, and he charged that there was one Charter ticket east for him in the First district, which was not counted, on which the names of all the other candidates for Charter offices were scratched, with the single exception of his name. And further, but there were two votes east for William B. Drake, for a iderman, by persons not citizens, one by a man named Callahan, and the other by one Carroll.

to the course of the course of

lowing resolution, viz.:—

Resolved. That Nicholas Seagrist. not having received a plurality of votes for the office of Alderman of the Twenty-second ward, at the election, held November 5, 1855, is not estimated to a seat in the Board of Aldermen, as the representative of said ward.

WILTUCKER, Secondary Secondary

J. H. VALENTINE, 5 Committee.
The minority report states that—
The vote for the sitting member was 771 votes, and there were also two votes for Wilham Drake, which your committee believe ought to be allowed to him, making a total of 773 votes for him.
That the contestant should also be allowed 773 votes, as followed.

I destroyed vote for Nicholas Seagrist, this making a tie vote.

That the contestant claims that Felix Callahan and Patrick Carroll, unnaturalized aliens, voted for William B. Drake, and that their votes are included in the number of votes returned for him. And that the votes of these men are a fraud on his rights and the rights of the qualified electors of the ward; and that, therefore, two votes should be deducted from the votes cast for the stilling member.

It was fully proved, in the opinion of your Committee, that Patrick Carroll was born an alien. No proof was offered to show that he had been naturalized, and four Committee think that the regist when the stilling member to prove that and carroll was not the stilling member to prove that and carroll was not all the stilling member that Carroll voted, and voted for William B. Drake.

As to Felix Callahan, it appears from his own testimony, and the testimony of others, that he had only been in this country about three years and a half.

That, allowing the sitting member the votes cast for William B. Drake and the two votes for William Drake, he would also have seven hundred and seventy-three votes, but as he received two integral votes, they should be deducted from the numler, leaving only seven hundred and seventy-one votes, being two less than the number received by the contestant.

Your Committee, therefore, recommend the adoption of the Votes Committee, therefore, recommend the adoption of the

of such electors, is justify entitled to a seat in this honorable body.

Your Committee, therefore, recommend the adoption of the following resolution:

Resolved Thit Nicholas Seagrist is entitled to a seat in this Beard saiderman of the Twenty-second ward, and that the Search saiderman of the Twenty-second ward, and that the seat in this Beard as Alderman of the Twenty-second ward, and that the Ciert of this Board is hereby directed to place his name on the list of the members of this Board, and that William B. Drake is not entitled to a seat in this Board, and that William G. B. Drake is not entitled to a seat in this Board.

The Alderman of the Ninth ward moved the adoption of the majority report.

Alderman Vanian moved that the whole matter ile on the table, in consequence of there not being a full attendance of members at the present moment. The motion of Alderman Varian was lost, by a vote of ten to nine.

tendance of members at the present moment. The motion of Alderman Varian was lost, by a vote of ten to nine.

Alderman Varian was lost, by a vote of ten to nine.

Alderman Varian then proceeded to argue in favor of the minerity report, and that Mr. Seagrist was entitled to the seat of Alderman of the Twenty-second ward, as the votes of Sallahan and Carroll were illegal, they being beyond doubt allens.

Alderman Traken spoke in favor of the majority report, and contended that Alderman Drake was entitled to re tain his seat. He did so, not because he was any particular friend of Drake, who was often opposed to him, but because he thought the evidence in his favor was plain.

Alderman FULMER was not satisfied which of the gentlemen was entitled to the seat, and he was of opinion that the matter should be sent back to the voters of the Twenty-second ward to decide the question. If this was not agreed to by the Board, he asked for time to investigate the matter, that he might see which of the parties were entitled to his vote.

Alderman VOCRUER, DRAKE and others spoke on the subject, but urged nothing further than appears in the reports of the committee.

The adoption of the majority report was then moved. On the roll being called, Alderman Varian objected to Alderman Drake voting on the occasion.

The Chars decided that Alderman Drake was entitled to vote.

There appeared:—

The Chair decided that Alderman Drake was entitled to rote.
There appeared:

AVES.—Corwin, Fox, Tucker, Voorhis, Griffiths, Briggs, C. Freeldent, Ely, Valentine, Drake—10.

ANYS.—Brown, Healy, Steers, Jackson, Moneghan, Fulter, Herrick, McCondey, Varian—9.

The majority report was adopted.

Alderman Voomus moved a reconsideration, which was let by a vote of 10 to 9.

Alderman Brakk, therefore, remains the sitting memior the Twenty second ward.

ADDITINGS OF THE BOARD.

A MOUTH OF ALGERMAN VARIAN, the Board resolved to

meet on Monday, Wednesday and Friday of each week, until the business of the session is disposed of.

A communication was reserved from the Mayor enclosing ordinances of the Common Council of Detroit transmitted by the Mayor of that city.

The board concurred with the Councilmen, to extend the hospitalities of the city, to the Hos. Edward Everett.

After disposing of some routine matters, the board adjourned to meet on Wednesday at 5 o'clock.

BOARD OF COUNCILMEN. THE HON. EDWARD EVERETT TENDERED THE PREE-DOM OF CITY HALL. DOM OF CITT HALL.

This board met yesterday afternoon at the usual hour, President Pinekney in the chair. The following are among the most important petitions presented:—
Of John Witherell and others, for a market near the foot

Of Ira Bull and others, for sewer on Bowery extension, from Franklin Square to Oak street; to Committee on Sewers.

Of G. Benedict and others, in favor of erecting the new City Hall in Madison Square; to Committee on Repairs and Supplies.

Councilman Bools presented a preamble and resolution relative to a new Charter for the city of New York, with a draft of the proposed charter. Inid on the table and ordered to be printed.

Councilman Dunn presented a resolution to furnish the proceedings of the late Board of Councilmen to the newly elected members. Referred to Committee of the Whole.

Councilman Bradley offered a resolution, which was adopted nem con, tendering the hospitalities of the city to the Hon. Edward Everett, offering nim the use of the Governor's room to receive his friends, and appointing a committee of three from each Board to carry out the objects of the resolution. Councilmen Bradley, Swan and Van Tine were appointed the committee on behalf of this Board.

Councilman Van Tink offered a resolution to bridge

Van Tine were appointed the committee on behalf of this Board.

Councilman Van Tink offered a resolution to bridge Broadway at the corner of Fulton street. The resolution, after going the rounds of all the committees and failing to get a reference to any, was finally laid upon the table.

Councilman Swan offered the following resolution, which was adopted:—

Whereas the Hon William Keni, appointed by ordinances of the Common Council to collate and revise the city ordinances, is now prepared to report to this Board: therefore

Beso yee, That two hundred and fifty copies of the ordinance as revised be printed for the use at the Common Council, under the supervision of the reviser.

Acjourned to Wednesday, at 5 o'clock P. M.

PROPOSED EXTENSION OF CHAMBERS STREET TO EAST RIVER —A meeting of the Special Committee appointed by the Board of Aldermen to investigate the propriety of extending Chambers atreet to the East river, was held yesterday, at the City Hall, Alderman Briggs officiating as chairman. There was quite a large at mudance of property holders, and much interest was manifested, procon, on the subject. Messrs. Jas. B. Dixon, Jos. Pig-

and con, on the subject. Mesars. Jas. B. Dixon, Jos. Piggit, Elisha Brocks, —— Davis, Adam Pentz, —— Titus, Wm. S. Alleg, Dan. Kingsland, R. E. Mowatt and others, appeared to present their views, which were as numerous as the speakers. Four different interests were represented yesterday;—

First, Those who favored the extension on the ground that there was no street between Fulton and Grand, running from river to river, and the necessities of travel or traffic imperatively required one or mode. Residos, the opening of a wide street through the crowded and more benighted regions of the Fourth ward would improve the value of the property therein situated, and disperse the poor people that now huddle in crowded tenements, to other and more healthy districts of the city. It is said persons owning \$10,000,000 worth of property urge this view of the question.

Second, Those who oppose the extension in 1810, on the ground that citizens are taxed quite enough now for the Bowery ex ension, and Central Park, and that it is best to pay for one improvement before we venture on another.

Third, Those who wish to extend Chambers street to James slip, as it would thereby interfere with lewer streets, and make less gore lots than any other line proposed.

Fourth, Those who wish the line to run to Catharine slip, as it would thereby make a strait street from end to end.

After the advocates of these various views had given went to their slightly excited feelings on the subject for

end.

After the advocates of these various views had given vent to their slightly excited feelings on the subject for about two hours, the chairman adjourned the meeting until some future time.

Chapel was packed with an animated and brilliant audience of ladies and gentlemen yesterday morning, to wit-King, Chancellor Ferris, of the University. Drs. Hutton. Anthon and other clergy men, besides the members of the faculty and distinguished invited guests. The exercises consisted of selected crations and decismations, which as a general thing were delivered in an acceptable manner. Philip W. Holmes was deservedly applauded for a discourse on "Natural Hopes and Natural Fears," and Mestra. W. H. Boughton, Babecok and Seabury deserve hentrable mention. After the exercises were concluded the testimonials awarded at the intermedistre examination were conferred. There was a good band present to diversify the proceedings—a number of pretty young ladies, who amused themselves by throwing large bounders at the speakers—a large attendance of young college swells, in tancy gowne, who were very estamatistic and gallant—and attegether the affair was very pleasant to all concerned.

een shown in New York, Pennsylvania, Massachusetts, and several other States, to put a stop to horse racing. In Philadelphia, the Hunting Park Course—the scene of the quickest trotting time on record—is no more, and a company of 250 gentlemen have established Point Breeze Park, where they have set up the best establishment for the training and testing the speed of horses in the United States. The grounds are commodious and well arranged and the Club House is a model, having all the modern improvements, with extensive stables, billiard rooms and ten-pin alleys attached. The grounds are not open to the public, and admission is given only to members with their friends. The steward of the club is Mr. John M. Lucas, late of the Ocean House, Newport, &c. A similar affair has been projected in this city.

FIRE IN HURSON STREET.—The alarm of fire in the Third

Fire in Hubson Street, -The slarm of fire in the Third First in Hudson Street,—The alarm of fire in the Third district, last night, shortly after eleven o'clock, was caused by a defect in the chimney flue separating the boot and shoe store of George Miller from the premises of M. Frrnhenstein & Co., upholsterers, No. 345 Hudson street, corner of Chariton. The wood work was found burning around the flue. This fire was extinguished by a lew pails of water. Mr. Miller's loss is estimated at about \$50; insured in the St. Nicholas Insurance Company for \$1,800. M. Frankenstein & Co.'s loss is estimated, by water, &c., at about \$100; insured for \$000 in she People's Insurance Company for \$1,800. M. Frankenstein & Co.'s loss is estimated, by water, &c., at about \$100; insured for \$000 in she People's Insurance Company. The building is owned by Elias Day. The chimney flue exhibited a very dilapidated appearance, and evidently constructed in a very unsais manner by the insertion of wood work where iron should have been placed.

DARING ROBERT.—The premises No. 600 Broadway, occupied by Titus & Dayton, were entered by burglars on

cupied by Titus & Dayton, were entered by burglars on Sunday night, and about \$200 in jewelry, segars and money, and three pairs of opera glasses were stolen. The thieres drank two bottles of champagne, and left with their respects for Messrs. T. & D.

ROTUNDA, CUSTOM HOUSE, March 2, 1856.

TO THE EDITOR OF THE HERALD.

Can you inform the public if the police do duty on Saturdays; and it so, where they are to be found? About half-past three o'clock this afternoon, as my little daughter and myself were passing through Houston street to the Bowery, on reaching the corner of Second avenue, a man seized hold of my arm with one hand and with the other wrenched my portemonaise from my hand. I screamed with fright, which seemed to afford pleasurs to two men who stood on the corner at the time, whom I believe were associates of the thief. After he had obtained his booty, he ran up Second avenue to First street, up First street to the Bowery, and a car passing up at the time, he jumped on and thus escaped. I followed as fast as I could run, with my little daughter, crying "Stop thief!" hoping to meet a policeman, but none were to be found, as usual, when wanted. On reaching the Bowery a gentisman stopped me, and on learning the circumstances said he had been looking for one for the last half hour, but without success. So I was obliged to console myself with his suggestion, that Mayor Wood had called them down to deduct their three days' pay.

New York, March I, 1860. Mrs. C. W., First st.

ONE MORE PASSENGER.—As the lightning express train on the Lake Shore road hat Saturday evening was stopping at the Ashtabula station, it received an important addition to its complement of passengers. The superintendent of that division of the road bappening to be on board the train, cleared one of the coaches of the passengers with the exception of the lady and a few famale assistants. A physician was sent for, and everything done to make both the mother and the little one comfortable. The train was detained some two or three hours. The lady belongs at [Cleveland, but was on her way from this city where her h usband is at work.—Buffalo Adventiser, March L.

Court of General Sections.

THE CASE OF THE COMMISSIONER OF STREWTS AND LAMPS—IS THE DISTRICT ATTORNEY A HINDOO?

trary to general expectation, the Recorder, and not Judge Capron, took a seat upon the beach. The elerk called over the names of the Grand Jurors summoned for the term, and there not being a quorum, they were dismissed for the day, with the direction to appear in Court next

merning.

The case of Michael Smith was first called, and the coursel for the accused stated that this was one of those cases commonly called the gambling cases, and he moved for a suspension of judgment. The District Attorney was for a suspension of judgment. The District Attorney was of opinion that in the s, as well as other cases of the same kind, which might be denominated mala probabila, the ends of justice will be subserved by a suspension of judgment. The Court being of the same opinion, judgment was accordingly suspended. The District Attorney and that he would take this opportunity to state that in the case of the people sgainst Heart and others, he had been notified by the delendants' counsel that a motion would be made at this term in arrest of judgment. Not overlay ready to argue the motion at present, he would sak for a postponement for the term. Besides, as the early proceedings in these cases that been had before the City Judge, he thought that judicial etiquette demanded that they should be continued before the same party.

Mr. Sickles replied, that while he desired to consult the convenience of the Pistrict Attorney, and would be willing to consent to a reasonable postponement, he could not consent to be the matter go off for the term. He thought that the motion might be argued some Saturday, when the Court was not otherwise employed. As to the other objection, he could not see the force of it. Hs could not suppose that the City Judge was particularly anxious to adjudicate upon these cases, and as the motion in street of judgment would be mad; to the Court, and not to a Judge, it was immaterial what particular member of the Court cooupled the benon. Besides, as the questions involved in the case were novel, and some of them had already been passed upon by the City Judge, he thought the opinion of the whole Court was desirable. As already been passed upon by the City Judge, he thought the opinion of the whole Court was desirable. As already been passed upon by the City Judge, he thought the opinion of the whole Court was desirable. As already been passed upon by the City Judge, he thought the opinion of the whole Court was desirable. As already been passed upon by the City Judge, he thought the opinion of the whole Court

Columbia College.—Simi-Annual Chembation.—Hope Chapel was packed with an animated and brilliant addence of fadies and gentlemen yesterday morning to with ness the semi-annual celebration of the students of Columbia College. The stage was occupied by President King, Chancellor Ferris, of the University, Drs. Hatton. Anthon and other clergymen, besides the members of the faculty and distinguished invited guests. The exercises consists of selected orations and decismations, which as a general thing were delivered in an acceptable manner. Philip W. Holmes was deservedly applaued for a ciscourse on "Natural Hopes and Natural Fears," and Mossirs. W. H. Boughton, Babecck and Seabury deserve honirable mention. After the exercises were concluded the testimonials awarded at the intermediste examination were conferred. There was a good band present to diversify the proceedings—a number of pretty young ladies, who amused themselves by throwing large bouquets at the speakers—a large attendance of young college swells, in tanny gowns, who were very estaustation and gallani—and attegether the affair was very pleasant to all concerned.

The Historical Soulty will hold an extra mesting to unusually interesting, as Professor Geo. W. Greens, late United States Consul at Rome, will deliver a lecture on the Life and Works of Thos. Cole; and the presentation of the portraits of Hon. Luther Bradish and the Earl of Carliake will be made to the society, the whole evening being thus devoted to art instad of history. Ladies are expected to be present.

E. M. Pierce, who has been missed so mysteriously since January last, might have sailed in the Baltic for Liverpool. His family, however, have received no itelligence of his whereabouts yet, nor was there any account of him in the private letters received by the America, consisting of several thousand message for a cargo of his whereabouts yet, nor was there any account of him in the private letters received by the American Consul, Major Heim, who is discharging her ago, consisting of seve

her cargo, consisting of several thousand measate, five real six hundred rifles, pistols swords, cannon, and all the equipments necessary to arm some five thousand men, including clothing, and a sufficient quantity of ammunition to seve for many months in the field. More than a thousand be real belief and the requisitions of this port, stored in the megazine of the fort; but it being discovered that the boxes were nailed with non instead of copper nails, the Vice Governor ordered them to be stored at such a distance from the city as not to endanger its safety, and Major Helm, with his characteristic promptness, chartered a vessel and placed on board some 150 tons of ammunition, which sailed this monining for New York. So our people of Charlotte Amelia town may be quiet on the subject of explosions. A peep into the hold of this vessel exhibits a compusion painful and curious—painful, because of the destruction of property—curious, because you see cannon, pork in barrels and pork out of barrels, muskets, rifles, sabres, beef, brite, clothing, 'ents, wagons, shells, becas and kegs of powder, and indeed every article of clothing, provision, and instrument of death thrown together, without regard to stowage or order; barres and boxes crushed to pisces, some wet, some dry, some demaged, and some in good order. The carge, however, is now nearly discharged, some twenty hands and three or four lighters having been engaged at it for some filteen days. The American Consul has been on board early and late urging on the work, and using every effort to save as much of the cargo as possible. It is estimated that the emut be some 500 tons in all, and that the cargo could not have cost less thin \$140,000.

All who have visited the vessel say the officer in command deserves great credit for getting this vessel into port at all. Somebody will certainly lose by this experiment, but those who dance must pay the fidder.

The ameia can nonly be made firewood of after she is discharged.

NEWCASTLE, Del. Feb 29—To the Editor of the New York Herald:—An article cated from Newcastle, and signed "Omeon the Freet." appears on the 2th last, calculated the second of the public mind that the author was a gentleman of veracity, and his assertiors based upon that truth which should characterise every correspondent, particularly one who becomes a calumnistor, and is expected to be responsible for any assertion be may cause to appear in the public pournals. The article referred to, after commenting upon an answer of the Hon Fecretary of the Treasury to the Beston merchants respecting referred to, after commenting upon an answer of the Hon Fecretary of the Treasury to the Beston merchants respecting the state that the culter Forward has been lying at Newcastle over fifty days, when there were frequent opportunities offered for her proceeding to the Capes. This reflection was intended to be cast upon the officers of enganders of the truth, and can be so proven by every shipmaster who has entered this harbor smoc has sith of January of the present year. Your correspondent, in an swer to a card of thanks presented by the shipmasters to the officers of the cutter, and published in the Philadelphia Ledger, completes his maliciousness, and at the same time, by his ignorance, makes himself appear ridiculous to those possessing more knowledge of the engency of the case which requires immediate assistance to save vesses a from injury. The idea which presents itself to your gentlemanly correspondent's mind its hasta a vessel arriving here can obtain all necessary assistance from store. He is certainly a gentleman of great discomment and foresight, and give him due eredit for his naulical experience. As for myself I excuse him for all deficiency, and therefore subscribe myself bis obedient servant.
